

Index and Scope

SCOPE

The Advances in Distributed Computing and Artificial Intelligence Journal (ADCAIJ) is an open access journal that publishes articles which contribute new results associated with distributed computing and artificial intelligence, and their application in different areas.

The artificial intelligence is changing our society. Its application in distributed environments, such as the Internet, electronic commerce, mobile communications, wireless devices, distributed computing and so on, is increasing and becoming an element of high added value and economic potential in industry and research. These technologies are changing constantly as a result of the large research and technical effort being undertaken in both universities and businesses. The exchange of ideas between scientists and technicians from both academic and business areas is essential to facilitate the development of systems that meet the demands of today's society.

We would like to thank all the contributing authors for their hard and highly valuable work. Their work has helped to contribute to the success of this special issue. Finally, the Editors wish to thank Scientific Committee of Advances in Distributed Computing and Artificial Intelligence Journal for the collaboration of this special issue, that notably contributes to improve the quality of the journal. We hope the reader will share our joy and find this special issue very useful.

INDEX

Using multi-objective optimization to design parameters in electro-discharge machining by wire by Alberto Ochoa, Lourdes Margain, Francisco Ornelas, Sandra Jiménez, Teresa Padilla	Page 1
A multiagent system to assist elder people by TV communication by Víctor Parra, Vivian López, Mohd Saberi Mohamad	Page 10
Android Malware Detection Using Kullback-Leibler Divergence by Vanessa N. Cooper, Hisham M. Haddad, Hossain Shahriar	Page 17
Service-Oriented Architectures: from Design to Production exploiting Workflow Patterns by Maurizio Gabrielli, Saverio Giallorenzo, Fabrizio Montesi	Page 26
Picture models for 2-scene comics creating system by Miki Ueno, Naoki Mori, Keinosuke Matsumoto	Page 53
Mobility Integration of ERP systems by Álvaro Lozano, Gabriel Villarrubia, Alberto López	Page 65
The awareness of Privacy issues in Ambient Intelligence by Mar López, Juanita Pedraza, Javier Carbó, José M. Molina	Page 71

EDITORS IN CHIEF

Sigeru Omatu
Osaka Institute of Technology (Japan)
Juan M. Corchado
University of Salamanca (Spain)

EDITORIAL ASSISTANT

Javier Bajo
Pontifical University of Salamanca (Spain)
Juan F. De Paz
University of Salamanca (Spain)
Sara Rodríguez
University of Salamanca (Spain)
María Navarro
