Regular Issue, vol. 5, n. 1 (2016)

SCOPE

The Advances in Distributed Computing and Artificial Intelligence Journal (ADCAIJ) is an open access journal that publishes articles which contribute new results associated with distributed computing and artificial intelligence, and their application in different areas.

The artificial intelligence is changing our society. Its application in distributed environments, such as the Internet, electronic commerce, mobile communications, wireless devices, distributed computing and so on, is increasing and becoming an element of high added value and economic potential in industry and research. These technologies are changing constantly as a result of the large research and technical effort being undertaken in both universities and businesses. The exchange of ideas between scientists and technicians from both academic and business areas is essential to facilitate the development of systems that meet the demands of today's society.

We would like to thank all the contributing authors for their hard and highly valuable work. Their work has helped to contribute to the success of this special issue. Finally, the Editors wish to thank Scientific Committee of Advances in Distributed Computing and Artificial Intelligence Journal for the collaboration of this special issue, that notably contributes to improve the quality of the journal. We hope the reader will share our joy and find this special issue very useful.

INDEX

Minutiae filtering using ridge-valley method by Marco A. Ameller F. and Angélica González	Page 1
On Chinese and Western Family Trees: Mechanism and Performance by Elton S. Siqueira, Patrick C. Kabongo, Tiancheng Li, Carla D. Castanho and Li Weigang	Page 11
Dynamic Fuzzy Clustering Method for Decision Support in Electricity Markets Negotiation by Ricardo Faia, Tiago Pinto and Zita Vale	Page 23
Treating Colon Cancer Survivability Prediction as a Classification Problem by Ana Silva, Tiago Oliveira, José Neves, and Paulo Novais	Page 37
Preliminary results on nonparametric facial occlusion detection by Daniel López Sánchez and Angélica González Arrieta	Page 51
Brazil in Search of Transparency E-Gov by Eduardo Facchini Alexandre P. Abreu Maria Lúcia Rebello Pinho Dias Scoton and Eduardo M. Dias	Page 61
The Artificial Intelligence Workbench: a retrospective review by Hugo López-Fernández, Miguel Reboiro-Jato, José A. Pérez Rodríguez, Florentino Fdez-Riverola, Daniel Glez-Peña	Page 73
