¿Qué es Mendeley?

- Un gestor bibliográfico que combina una versión web con una versión de escritorio (*desktop*) que se sincronizan automáticamente.
- Una red social académica / científica. Incorpora funcionalidades y características propias de las redes sociales, **permitiendo compartir referencias bibliográficas** con otros colegas y descubrir lo último publicado en un área de interés.

Dispone de una versión gratuita y otras versiones de pago con mayores funcionalidades.

Características de Mendeley

Con Mendeley puedes:

- Crear y administrar citas de libros, artículos, vídeos y otros documentos.
- Importar citas procedentes de diversas bases de datos gracias a la herramienta «*Web Importer*».
- Organizar la información mediante carpetas, subcarpetas, etiquetas y filtros.
- Extraer automáticamente los metadatos de los PDFs importados.
- Subrayar y realizar anotaciones en los artículos (documentos) y compartir esas notas con otros colegas.
- Colaborar con otros investigadores.
- Buscar y encontrar artículos en tu área de investigación.
- Obtener estadísticas detalladas de autores y publicaciones.

Versión local – Mendeley Desktop

The screenshot displays the Mendeley Desktop application window. The interface is divided into three main sections:

- Left Panel (MY LIBRARY):** A sidebar containing a list of folders and documents. A red box highlights this area, with the label "Colecciones" (Collections) pointing to it.
- Center Panel:** A table of search results under the heading "Técnicas multivariantes". The table has columns for Authors, Title, Year, Published In, and Added. A green box highlights this table, with the label "Referencia breve" (Short reference) pointing to it.
- Right Panel (Details):** A detailed view of a selected article. It shows the title "Literature search using PubMed: an essential tool for practicing evidence-based medicine", authors "A. Sood, A. Ghosh", journal "The Journal of the Association of Physicians of India", year "2006", volume "54", issue, and pages "303-308". A purple box highlights this panel, with the label "Referencia completa" (Full reference) pointing to it.

Referencia breve

Referencia completa

Versión local – Mendeley Desktop

La pantalla en la versión local se estructura de la siguiente manera:

My Library

- Desde aquí podemos configurar y administrar las distintas colecciones de documentos.
- Desde esta sección podemos añadir publicaciones, una carpeta, aplicar filtros por autor, palabras clave, o etiquetas personales
- Podemos ver la *Biblioteca (view)* donde se muestran todos los documentos. Dispone de 2 tipos de visualización: formato tabla (tal como aparece en la imagen) y cita, en el que las referencias aparecen en varias líneas de acuerdo con el estilo de cita elegido.
- Desde este apartado se visualizan los detalles del documento seleccionado, también se agregan etiquetas y notas.

Añadir referencias

Mendeley dispone de diferentes opciones para añadir referencias

- Importar referencias a través de la herramienta Web Importer.
- Añadir referencias de forma manual.
- Añadir un archivo o carpeta.
- Arrastrar y soltar PDFs dentro de la columna central de Mendeley Desktop.
- Importar PDFs mediante la herramienta Watch Folder.
- Importar bases de datos de referencias en formato BibTex, RIS, EndNote XML.
- Sincronizar con otros gestores como Zotero o CiteUlike.
- Importar desde el *Mendeley Research Catalog*.

Añadir referencias

The screenshot shows the Mendeley Desktop application. The 'File' menu is open, highlighting several options. The main window displays a list of references with columns for Title, Year, Published In, and Added. A detailed view of a specific article is shown on the right side.

A role for COX2-derived PGE2 and PGE2-receptor subtypes in head and neck squamous carcinoma cell proliferation

Authors: A. Abrahao, R. Castilho, C. Squarize et al.

View research catalog entry for this paper

Journal: *Oral Oncology*

Year: 2010

Volume: 46

Issue: 12

Pages: 880-887

Abstract:

The overexpression of cyclooxygenase (COX)-2 is a frequent event in squamous cell carcinomas of the head and neck (HNSCC), and non-steroidal anti-inflammatory drugs, which are potent inhibitors of COX-1 and COX-2, exert chemopreventive effects on HNSCC cancer development. COX-2 promotes the release of the pro-inflammatory mediator prostaglandin E2 (PGE2), which acts on its cell surface G protein-coupled receptors EP1, EP2, EP3, and EP4. Here, we investigated the role of PGE2 and its receptors in cellular proliferation in HNSCC. The expression of COX-2 and EP1-4 was examined in immortalized oral epithelial cells and in a representative panel of HNSCC cell lines, and based on these data EP1-EP3 and COX-2 expression were evaluated by immunohistochemistry in a large clinic...

Añadir referencias

The screenshot shows the Mendeley Desktop application window. The main area displays a list of references under the 'Head & Neck' collection. A red arrow points from a text box to a PDF icon labeled 'HeadNeck_20.pdf' in the trash area, indicating the process of adding a reference.

Supracricoid laryngectomy with cricohyoideoepigloto-pexy or cricohyoideo-pexy: Experience on 32 patients

Authors: M. Nakayama, M. Okamoto, S. Miyamoto et al.

View research catalog entry for this paper

Journal: *Auris Nasus Larynx*

Year: 2008

Volume: 35

Issue: 1

Pages: 77-82

Abstract:
Objective Supracricoid laryngectomy (SCL) with Cricohyoideoepigloto-pexy (CHEP) or Cricohyoideo-pexy (CHP) is an organ preservation surgery indicated for early and selected advanced laryngeal cancers. To verify the clinical usefulness of supracricoid laryngectomy versus total laryngectomy, a retrospective review was conducted. Methods We summarized the clinical and postoperative data of 32 patients who received SCL over the past 9 years (1997-2006). The mean age of the 32 patients

Type: Journal Article

(iii) Patient selection and consent

Authors: C. Gooding, F. Haddad

Journal: *Orthopaedics and Trauma*

Year: 2009

Volume: 23

Issue: 1

Pages: 17-26

Abstract:

Appropriate patient selection and consent for a total hip replacement or hip resurfacing is a serious undertaking and one that should not be taken lightly. From the patients' first presentation, we cover the common pitfalls that can be encountered in the patients' history and examination as well as specific indications and contraindications to hip resurfacing and hip replacement. Possible alternatives to arthroplasty are discussed ranging from simple analgesia to the more controversial treatments such as hyaluronic acid injectors. The different options available for a total hip replacement are considered including the choice of a cemented or uncemented implant, the bearing surface and the reasons for making those choices. Unfortun...

Guía para la elaboración de Trabajos Científicos: Grado, Máster y Postgrado (2013)

Pages: 67-80

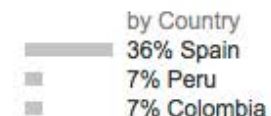

ISBN: 978-84-616-4429-2

Abstract

Esta Guía se ha realizado con el objetivo de ofrecer información relevante, concisa y precisa sobre los elementos y procedimientos básicos para la elaboración rigurosa y científica de los trabajos que hay que realizar en el Grado (Trabajo Fin de Grado) y en Post-Grado (Trabajo Fin de Máster y Tesis Doctoral) por parte de los discentes y/o profesionales de Ciencias de la Salud, Ciencias Sociales y afines. Toda la información introducida en esta Guía es fruto de la experiencia docente (cursos doctorado y formación continua) e investigadora y tiene un marcado carácter práctico para que sirva de apoyo y facilite la realización, desarrollo y presentación de trabajos científicos universitarios y/o profesionales. En cada tema de esta guía se establecen los conocimientos, procedimientos y herramientas que se consideran imprescindibles y/o necesarios para la consecución de un buen trabajo científico, ya sea de Fin de Grado, Fin de Máster, Tesis Doctoral u Otros. Además, a lo largo de la misma se aportan consejos y recomendaciones prácticas que son consecuencia de la experiencia del equipo de docentes y expertos que han participado en la elaboración de esta Guía. La Guía nace con el doble propósito de aportar rigor y calidad en los trabajos científicos y ayudara los universitarios y profesionales a adquirir competencias y habilidades para presentar y reflejar de forma escrita los trabajos elaborados para conseguir el objetivo, graduación, máster, doctorado u otros. En la medida en que esta Guía sea útil al discente y a los profesionales en el proceso de aprendizaje de competencias y habilidades transversales y en su desarrollo profesional habremos conseguido nuestro objetivo.

Grupos en Mendeley

The screenshot displays the Mendeley Groups interface. At the top, there is a navigation bar with tabs for Feed, Library, Suggest, Stats, and Groups (which is highlighted). A search bar is located to the right of the navigation bar, with the text 'Search groups...' and a magnifying glass icon. Below the navigation bar, the main heading is 'Groups', followed by the text 'In this catalog: 106,690 public groups'. A green button labeled 'Create a new group' is positioned to the right of this text. Below the heading, there is a search bar with the text 'Search groups...' and a magnifying glass icon. Below the search bar, there is a blue banner with the text 'Search groups in your area of interest, share papers and start collaborating either publicly or privately.' Below the banner, the page is divided into two main sections: 'My groups' and 'Browse disciplines'. The 'My groups' section is further divided into three sub-sections: 'Institution groups', 'Groups I own or can administer', and 'Groups I am a member of'. The 'Institution groups' section shows a group for 'Universidad de Salamanca' with a description and a link to join. The 'Groups I own or can administer' section shows a group for 'BIPLOT 2.0' with a description, tags, and statistics. The 'Groups I am a member of' section shows a group for 'altmetrics' with a description, tags, and statistics. The 'Browse disciplines' section shows a list of disciplines including Arts and Literature, Astronomy / Astrophysics / Space Science, Biological Sciences, Business Administration, Chemistry, Computer and Information Science, Design, Earth Sciences, Economics, Education, Electrical and Electronic Engineering, Engineering, Environmental Sciences, Humanities, Law, Linguistics, Management Science / Operations Research, Materials Science, Mathematics, Medicine, Philosophy, Physics, and Psychology.

Compartiendo información: grupos

Create a new group

Enter a group name...

Enter a group description...

Group Type

- Private**
Share references and full-text files. Only group members can see the group, good for sharing in private.
- Invite-only**
Share references only. Public can follow the group only, good for sharing references or reading lists.
- Open**
Share references only. Public can become a member or follow the group, good for crowd sourcing reading lists.

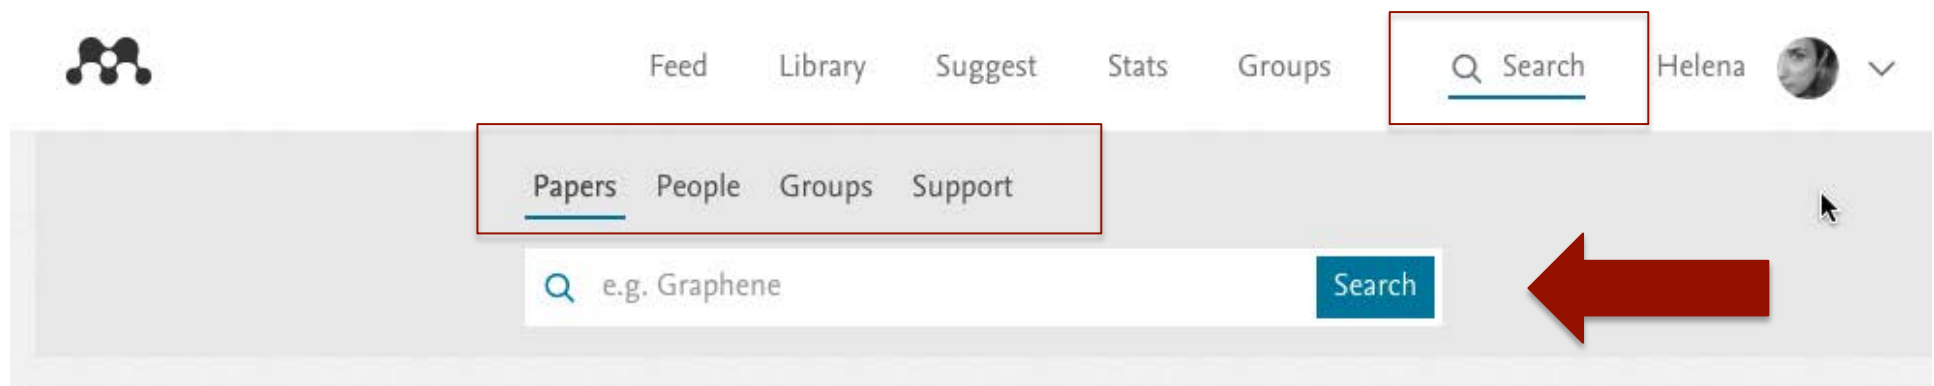

Cancel Create group

Grupo Privado: para compartir referencias y documentos a texto completo. Solo los miembros del grupo puede ver el grupo.

Por invitación: para compartir referencias. El público solo puede seguir el grupo.

Abierto: Para compartir referencias. El público puede ser miembro del grupo y añadir referencias o solo seguirlo.

Papers

The screenshot shows the Mendeley search interface. At the top, there is a search bar with the text 'altmetric' and a magnifying glass icon. Below the search bar, there is a hint 'eg: scientific impact measures' and a link for 'Advanced search'. The search results are displayed in a list format. The first result is titled 'Validity of altmetrics data for measuring societal impact: A study using data from Altmetric and F1000Prime' by Lutz Bornmann in *Journal of Informetrics* (2014). The snippet for this result reads: 'Can altmetric data be validly used for the measurement of societal impact? The current study seeks'. It has 102 readers and options to 'Save reference', 'Get full text at journal', and 'Related research'. The second result is titled 'Altmetric for Institutions launches.' by David Free in *College & Research Libraries News* (2014). The snippet reads: 'The article offers brief information on the Altmetric for Institutions, a web-based software application which enables higher educational institutions to track and evaluate the online dissemination, and impact of their authored...'. It has 6 readers and options to 'Save reference' and 'Related research'. The third result is titled 'Interactions The Most Popular Paper on the Internet Altmetric' by Jean Liu in *Altmetric* (2013). The snippet reads: 'Case study about altmetric and the internet's most popular paper'. It has 4 readers and options to 'Save reference' and 'Related research'. On the right side of the search results, there is a 'Refine search' section with a checkbox for 'Open Access articles only' and a lock icon.
