Synopsis: After their children died from malaria in Mozambique, two women, Mary and Martha, join forces to promote the fight against this disease.

"...if you take every single person killed in a terrorist act around the world in the last 20 years and you add to that all the lives lost in the Middle East since 1967, the Six Day War, and you add to that every single American life lost in Vietnam, in Korea, and in every single American engagement since then...Iraq, Afghanistan...if you take all those lives and you multiply it by two, that's the number of children that die of malaria every single year".
