Synopsis: Ben is a middle-aged man who has suffered through some devastating losses in his life. As a response to his troubles, he decides to take a care-giving course. In the process, he meets others who are going through struggles of their own. As he gets to know them, he comes to understand the value of community in facing hard times. This puts his own losses in perspective, and it makes it easier for him to accept them (DVD).

[Tráiler](#)

Genetic disorder associated with X chromosome that appears de novo or, most often, in a recessive sex-linked inherited form (from carrier mothers to, generally, male children).

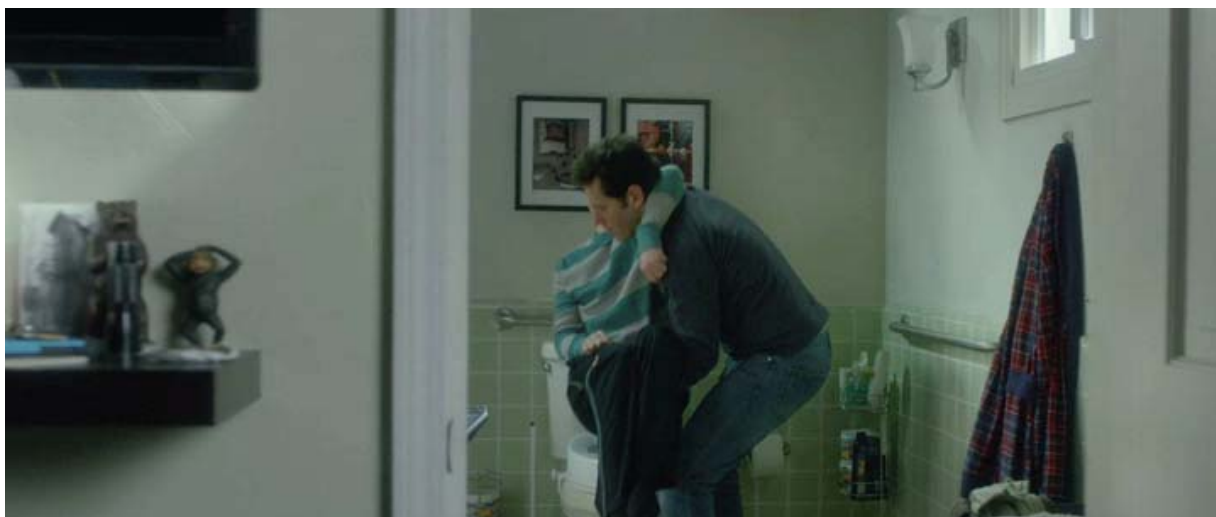

In advanced forms, the disease causes paralysis of the lower extremities, that confines the patient to a wheelchair, and...

...weakness of the upper extremities.

Deformities of the hands (claw hands).

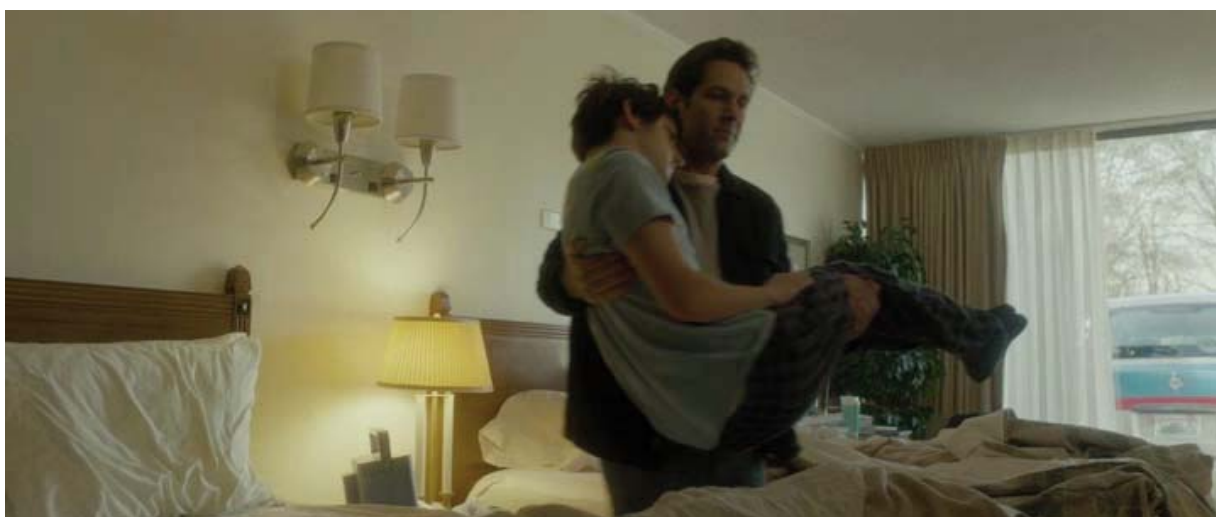

Need for support in routine activities,...

...hygiene,...

...personal care,...

...mobility,...

...overcoming of architectural barriers.

Polytherapy.

Symptomatic treatment [Deflazacort (corticosteroid), losartan (cardiomyopathy), eplerenone (cardiomyopathy)] and...

... supplements (protandim, haelan, omega 3, calcium, vitamin D, coenzyme Q10, creatinine, glutamine, quercetin, multi-vitamins, green tea mega extract).

Physiotherapy (stretches...).

Respiratory support.
