TURTLE FAUNAL CHANGES IN CENTRAL EUROPE AND RELATED AREAS

ÍNDICE/TABLE OF CONTENTS

Emiliano JIMÉNEZ FUENTES: Prólogo.....	5-6
EDITORIAL	7-10

A. First faunal change: Triassic-Jurassic (T/J) boundary

Hans-Volker KARL, Elke GRÖNING & Carsten BRAUCKMANN: Revision of <i>Tropidemys seebachi</i> Portis, 1878 (Testudines: Eucryptodira) from the Kimmeridgian (Late Jurassic) of Hanover (Northwestern Germany)	11-24
---	-------

[Revisión de *Tropidemys seebachi* Portis, 1878 (Testudines; Eucryptodira) del Jurásico Superior (Kimmeridgiense) de Hanover (NO de Alemania)]

Hans-Volker KARL: Bite traces in a turtle shell fragment from the Kimmeridgian (Upper Jurassic) of Northern Germany	25-30
---	-------

[Huellas de mordeduras en un caparazón de quelonio del Kimmeridgiense (Jurásico Superior) del norte de Alemania]

B. Second faunal change: Jurassic-Cretaceous (J/C) boundary

Hans-Volker KARL, Christian J. NYHUIS & Lennart SCHLEICHER: Redescription of <i>Desmemys bertelsmanni</i> (Wegner, 1911) from the Upper Jurassic and Lower Cretaceous of Germany (Testudines: Pleurosternidae).....	31-46
---	-------

[Redescripción de *Desmemys bertelsmanni* (Wegner, 1911) del Jurásico Superior y Cretácico Inferior de Alemania (Testudines: Pleurosternidae)]

Hans-Volker KARL, Elke GRÖNING, Carsten BRAUCKMANN & Mike REICH, <i>Ballerstedtia bueckebergensis</i> , a new turtle from the Early Cretaceous Wealden Facies of Germany (Testudines: Pleurosternidae)	47-60
--	-------

[*Ballerstedtia bueckebergensis*, nueva tortuga del Cretácico Inferior (facies Weal) de Alemania (Testudines: Pleurosternidae)]

Hans-Volker KARL, Diana VALDISERRI & Gottfried TICHY: New material of the chelonian ichnotaxon *Emydbipus cameroi* Fuentes Vidarte *et al.*, 2003 from the Berriasian (Lowermost Cretaceous) of Northern Germany 61-72

[Nuevo material del ichnotaxon de quelonio *Emydbipus cameroi* Fuentes Vidarte *et al.*, 2003 del Berriasiense (Cretácico Inferior) del Norte de Alemania]

I. Rise of Matamata like turtles

Hans-Volker KARL, Elke GRÖNING, Carsten BRAUCKMANN & Mike REICH: First record of *Chitracephalus dumonii* (Testudines: Pleurodira; Early Cretaceous) in Central Europe and the rise of Matamata-like turtles..... 73-86

[Primer registro de *Chitracephalus dumonii*/= ?*Salasemys pulcherrima* (Testudines: Pleurodira) (Cretácico Inferior) en Europa Central. Ampliación del conocimiento de las tortugas similares a las Matamata]

II. Rise of soft shelled turtles

Hans-Volker KARL, Jesper MILAN & Gottfried TICHY: New shell remains of *Peltochelys duchastelli* (Dollo, 1884) from Western and Middle Europe and the rise of trionychids (Testudines: Trionychoidea) 87-106

[Nuevos restos de caparazones de *Peltochelys duchastelli* (Dollo, 1884) de Europa Occidental y Central e incremento de los Trionícidos (Testudines: Trionychoidea)]

III. Rise of sea turtles

Hans-Volker KARL, Stefanie BIERMANN & Gottfried TICHY: The oldest true sea turtle of the world, *Oertelia gigantea* (Oertel, 1914) n. gen. from the Aptian of Kastendamm near Hanover, Germany 107-128

[La más antigua tortuga marina verdadera del mundo, *Oertelia gigantea* (Oertel, 1914) nov. gen., del Aptiense de Kastendamm, cerca de Hanover, Alemania]

Hans-Volker KARL & Christian J. NYHUIS: *Ctenochelys stenoporus* (Hay, 1905) (Testudines: Toxochelyidae) and *Clidastes* sp. (Squamata: Mosasauridae) from the Upper Cretaceous of NW-Germany 129-142

[*Ctenochelys stenoporus* (Hay, 1905) (Testudines: Toxochelyidae) y *Clidastes* sp. (Squamata: Mosasauridae) del Cretácico Superior del noroeste de Alemania]

Hans-Volker KARL, Christian J. NYHUIS & Lothar SCHÖLLMANN: The first shell remains of *Rhinochelys pulchriceps* (Owen, 1851) from the Upper Cretaceous of NW-Germany (Testudines: Protostegidae)..... 143-151

[Primeros restos de caparazón de *Rhinochelys pulchriceps* del Cretácico Superior del noroeste de Alemania (Testudines: Protostegidae)]

C. Third faunal change: Cretaceous-Paleogene (C/P) boundary

Hans-Volker KARL, Elke GRÖNING & Carsten BRAUCKMANN: New materials of the giant sea turtle *Allopleuron* (Testudines: Chelonioidea) from the marine late Cretaceous of Central Europe and the Palaeogene of Kazakhstan..... 153-173

[Nuevos ejemplares de la tortuga gigante de mar *Allopleuron* (Testudines: Chelonioidea) del Cretácico Superior marino de Europa central y del Paleógeno de Kazajistán]

Hans-Volker KARL & Bent E. K. LINDOW: Revision of the Paleocene turtles (Reptilia: Testudines) of Denmark 175-192

[Revisión de las tortugas (Reptilia: Testudines) del Paleoceno de Dinamarca]

Hans-Volker KARL & Henrik MADSEN: *Tasbacka danica* n. sp., a new Eocene marine turtle of Denmark (Testudines: Chelonioidea) 193-204

[*Tasbacka danica* n. sp. (Testudines: Cheloniidae), nueva tortuga marina del Eoceno de Dinamarca]

IV. Rise of Leatherback turtles

Hans-Volker KARL, Bent E. K. LINDOW & Thomas TÜTKEN: Miocene leatherback turtle material of the genus *Psephophorus* (Testudines: Dermochelyoidea) from the Gram Formation (Denmark)..... 205-216

[Tortugas de cuero miocénicas del género *Psephophorus* (Testudines: Dermochelyoidea) de la Formación Gram (Dinamarca)]

D. Fourth faunal change: Paleogene-Neogene (P/N) boundary

V. Rise of stream terrapins

Hans-Volker KARL, Elke GRÖNING, Carsten BRAUCKMANN, Mike REICH & Alexander GEHLER: Revision of *Chelydra strausi* Schmidt, 1966 (Testudines: Chelydridae: Chelydropsinae) from the Late Pliocene of Willershausen, Germany 217-230

[Revisión de *Chelydra strausi* Schmidt, 1966 (Testudines: Chelydridae: Chelydropsinae) del Plioceno Superior de Willershausen, Alemania]
